EDUCATION

B.A. in Mathematics and Economics (*with honors*), minor in Statistics 2025
Grinnell College

- Relevant Coursework: Abstract Algebra, Applied Game Theory, Applied Statistics, Differential Equations, Design & Analysis of Experiments, Econometrics, Number Theory, Probability & Statistics, Real Analysis, Research Methods, Statistical Modeling
- Outside Coursework: Biological Psychology (ELAC), Data Science for Research Assistants (UChicago), Using Big Data to Solve Economic Problems (Harvard)

Visiting Honours Student 2024
University of Edinburgh

- Relevant Coursework: Computing & Numerics, Programming & Numerical Methods for Economics

RESEARCH EXPERIENCE

Predoctoral Fellow in Social and Decision Neuroscience 2025–2027
Division of the Humanities and Social Sciences, Caltech

- PI: Colin Camerer

Research Fellow 2024–2025
Division of the Humanities and Social Sciences, Caltech

- PI: Colin Camerer
- Conduct in-lab and virtual experiments via Caltech's SSEL and Prolific, collecting biometric data (e.g., electrodermal activity, heart rate, blood volume pulse, skin temperature) using Empatica E4 and experimental stock market data
- Implement machine learning models (e.g., LASSO, random forests) and forecasting models based on Afrouzi et al. (2023) using Python to predict asset bubble formation
- Pioneering project using affect-based photo databases to induce exogenous insular cortex activation and analyzing through Neurosynth

Research Fellow 2023
Department of Economics, Harvard University

- PIs: Gregory Bruich and Raj Chetty
- Employed Stata to clean, sort, and analyze Opportunity Insights census data sets, investigating the correlation between highways and declining social mobility in major American cities
- Conducted literature reviews, designed empirical models (e.g., DID, IV, RD), and produced final research paper with replication code

Research Assistant 2019
Department of Economics, East Los Angeles College

- Executed comprehensive data collection and sorting on seaport development and labor demands in Indonesia

WORKING PAPERS

Toma, F. M., Spoon, R., Henning, T., **Ngo, C. H.**, Camerer, C. F., & Smith, A. The Psychobiological Predictability of Experimental Asset Bubbles. [\[poster\]](#) [\[slides\]](#) [\[pre-reg\]](#)

WORKS IN PROGRESS

Hu, S., Saito, K., Imai, T., Fujino, J., **Ngo, C. H.**, Camerer, C. F. Disorders of Rationality – Is Austistic Systematizing Associated with Economic Consistent Rationality?

Ngo, C. H. Feeding Attendance: The Impact of California’s Universal Meals Program on Public School Absenteeism.

Ngo, C. H., Conway, C. M.*, & Cha, J.* (provisional title) Why It Sounds Right: A Game-Theoretic and Statistical Learning Approach to Western Classical Music.

Ngo, C. H., Utar, H.* The Impact of International Property Rights on Foreign Movie Exports: Evidence from Vietnam’s WTO Accession.

*: *supervisory role*

AWARDS & GRANTS

External

Midwest Economics Association’s Best Undergraduate Paper, Honorable Mention	2025
Thomas and Charlotte Taylor Scholarship (\$10,000)	2024–2025
San Gabriel Women’s Club Scholarship (\$4,000)	2021–2025
PREDOC.org Honorarium (\$500)	2024
National Institute of Statistical Sciences IOF Travel Grant (\$450)	2023
PREDOC.org Summer Research Award (\$2,000)	2023

Internal

Gilbert DeBartolo ’69 Memorial Prize in Economics (\$1,300)	2025
Dean’s Office Research Conference Travel Grant (\$1,920)	2025
Professional Development Grant (\$700, \$700, \$300)	2024–2025
Founder’s Scholarship (\$64,000)	2021–2025
Grinnell Choice Scholarship (\$40,000)	2021–2025
Graduate School Scholarship (\$700)	2024
Summer Research Grant (\$4,000)	2024
Externship Grant (\$960)	2023
Hill Distinguished Award (\$750)	2023

CONFERENCE & WORKSHOP PRESENTATIONS

2025 PREDOC.org Research Conference at the World Bank in Washington, D.C.

Poster: The Impact of California’s Universal Meals Program on Public School Absenteeism

Midwest Economics Association 89th Annual Meeting in Kansas City, MO

*Lecture**: The Impact of California’s Universal Meals Program on Public School Absenteeism

2024 Research in Behavioral Finance Conference (RBFC) at Vrije Universiteit Amsterdam
Lecture[†]: The Psychobiological Predictability of Experimental Asset Bubbles

Los Angeles Experiments (LAX) Workshop at Caltech
Poster: The Market's Hidden Signals: Using Biometric Data to Predict Financial Bubbles

SFP Summer Seminar Day at Caltech
Poster: The Market's Hidden Signals: Using Biometric Data to Predict Financial Bubbles

2023 National Institute of Statistical Sciences Ingram Olkin Forum Series at Carleton College
Discussant: Statistical Challenges in the Analysis of Police Use of Force

Undergraduate Research Conference at the Federal Reserve Board of Governors in Washington, D.C.
Poster: America's Interstate System as an Agent of Dampening Social Mobility

PREDOC.org Seminar Series
Lecture: America's Interstate System as an Agent of Dampening Social Mobility

†: *presented by co-author*

✱: *special recognition or award*

Note: *All costs associated with conference and workshop participation were fully funded by host institutions and/or awarded through competitive scholarships and grants.*

SERVICE

To the Profession

Advisory Board, PREDOC.org	2023–Present
Board Member, Water Drop LA	2020–2022

To Grinnell College

Board Member and Mentor, Diversity and Inclusion Club for Economics (DICE)	2024–2025
Elected Board Member, Student Educational Policy Committee for Economics	2022–2025

WORK EXPERIENCE

Teaching

Course Tutor, Research Methods (PSY 225), Grinnell College	2024–2025
--	-----------

Other

Private English Tutor, self-employed	2024–Present
Private Mathematics Tutor, self-employed	2022–Present
Mathematics Instructor, Mathnasium of Monterey Park	2022–2023
Lead Mathematics Instructor, Mathnasium of San Marino	2021–2023
Grinnell House Attendant, Grinnell College	2023
Director of Research, Water Drop LA	2020–2022
Assistant Secretary, Keck Medicine of USC	2019–2020

CERTIFICATIONS

[CITI Biomedical Research](#)

CITI Hybrid Research

CITI Social & Behavioral Research

SKILLS

Programs

Java, Julia, $\text{\LaTeX}$, MATLAB, Python, R, Stata

Tools

AWS, Cyberduck, Git, Google Workspace, Gorilla, Jupyter Notebooks, Microsoft Office Suite, Neurosynth, Overleaf, Prolific, SPSS

Languages

English (native), Vietnamese (intermediate), Spanish (elementary), Cantonese (elementary)

Updated: August 12, 2025
